

Let's tell the world about Jesus, together.

At Jesus Film Project®, we're passionate about telling people the story of Jesus in their language. That's why in 1979 we created the *JESUS* film—now available in more than 2,000 languages!

Today, we're about more than just one film. We regularly create new films, and we provide tools, resources and equipment to help Christians share Jesus in the local language, wherever they are. By God's grace, our tools help believers:

- share the message of the gospel in almost any heart language
- mentor new believers and raise up leaders
- plant healthy, thriving churches

It's a big mission, and we can only move forward in prayer and by partnering together with believers like you.
