Last updated 6/17/6/17/2020

The Jesus Film Project expresses its deep appreciation to those offering their translations of God's holy Word to use in the family of *Jesus* films. These translators have freely allowed use of their work that viewers might hear the very words of Jesus in their own mother tongues.

The films are based on the holy Bible, both the Old and New Testaments, yet the vast preponderance of scripture is imported from the Gospel of Luke. While the Jesus Film Project has gone to great expense to portray the biblical and cultural accuracy of each film, this effort is ultimately dependent on the translator's intense labor of love for God's word to ensure its accuracy and clear understanding. Without a clear understanding of Jesus' words and personal claims, the visual portrayal of his life and ministry would be next to meaningless.

For this reason, we seek to honor those who have poured their lives into translating God's Word for your sake. We would strongly suggest that viewers purchase and daily study the scriptures in their own language to better love and follow the Lord Jesus Christ. These films merely open the door to His life and eternal kingdom.
